Submission: Objection

Comments: As the Priest-in-Charge of Holy Trinity Church Dinting Vale I write on behalf of the Parochial Church Council objecting to this proposal.

There has been NO consultation and NO contact direct to the Church who are 'local residents' and who serve the local community. This is why this objection comes on the 'closing date' which users of our building made us aware of.

Dinting Vale road is a heavily congested road with heightened levels of pollution and with the only access route for this development onto the A57 Dinting Vale, opposite the School of around 130 children, and the Church which offers vital services to the community, the level of additional regular traffic would cause 'gridlock' and major traffic queues which would further add to noise and pollution to the detriment of local residents health, and to members of the local community who use the church and the school health and safety. Funeral cars and Wedding Cars experience difficulty already in parking by the church and an increase in traffic from this development would have a devastating impact on those at these critical times in life. Imagine a funeral of a loved one and the stress and anxiety of not being able to arrive at the church, or a coffin having to be brought along on a trolley from either end of the road alongside the noise and car fumes, or if this was your Wedding Day and a Bride caught up in the same?

The church offers many services to the local community, to the elderly and families particularly and parking is a limiting factor if someone is able to leave their home or not. With this proposal the additional weight of traffic may make this at least impractical and at worst impossible and fearful to do so.

We also have further environmental and well-being concerns of the impact on natural habitat, wildlife and biodiversity that would be destroyed in creating this development in one of the few spaces where the community can go from the church and school for their well-being too.

Thank you,

Rev'd Nick Gurney.
