Dear Madam/sir

We have no new comments to make. However, we would reiterate our previous request that a condition is added to any permission granted to the effect that "all RoW should be kept open and safe to use throughout any works and afterwards"

Many thanks

Please find attached document

Dear Bill

We replied to this last time simply asking for a condition that footpaths remained open and safe to use during the works. The application has been revised (think the shape of the site has changed?) - is it still correct that it does not affect any footpaths (as they claim) - in which case I will simply repeat our previous comment

Many thanks for all your help

All best wishes

Derek

PS Are you finding finger posts are being replaced more quickly now?
