Details of the pre-application advice received

We were advised that a full planning application was required, that a coal mining report would be required and a tree survey potentially required.

We were advised that given the existing tree coverage to the road, it was unlikely that the proposals would be visually intrusive, but until full proposals were available it couldn't be fully assessed.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
