Submission: Objection

Comments: I object to the revised plan on the grounds of:

1.Traffic issues:

\*The revised plan to extend a dropped curb will increase parking on the road and create health and safety concerns of collision with people or cars

\*Increase on road parking for visitors to 6 houses including number 10 at the later end of the estate, will restrict access and create health and safety concerns of collision with people or cars, especially at times of high road useage

\*The width of the proposed extension will reduce the space available for exiting the cars belonging to no.11, meaning occupants in the left side of the car will have to exit on my land, with potential damage to my property.

2. 1.Design and visual impact:

\*This is an over development of the plot and does not aesthetically meet the development of the existing estate.

\* Increasing the size of a dropped curb does not aesthetically meet the development of the existing estate.

3.Light pollution, a 2 story extension will significantly reduce the natural light into my family bathroom.

4.This extension will reduce natural light into my dining kitchen.

5.A 2 story extension will impact on privacy in a well used area of my garden
