Thank you for your consultation.

This is an enterprising and welcome proposal.

It is architecturally benign and should help to guarantee the future of the Chapel.

Our only adverse comment is over the secondary glazing. It is surely not necessary in such comparatively small spaces and it will greatly impede appreciation of the single most interesting feature in the holiday let - the impressive wheel window. It is bound to make access for cleaning and repair considerably more difficult. The proportion of solid to void is modest so heat loss in the Winter will be limited whilst the two glazing skins could render the room lit by the wheel very uncomfortable in the Summer

We urge that it be omitted
