☐ Land Owner
☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
☒ Proof of Evidence
☐ Statement
☐ Statement of Common Ground
☐ Interested Party/Person Correspondence
☐ Other

YOUR COMMENTS ON THE CASE

I would like to appeal this planning application on many grounds.

We have to consider here The local residents already living in the Glossop area, the volume of traffic, the local services that are already overloaded. How can we realistically allow another road leading on to a busy main road near a children's school? The roads in and out of glossop are already overloaded, and an absolute nightmare to try and get in and out of the area on already. We have to be sensible and realistic when we think about adding more roads with more cars to the area.

We have to think also of the mental health of the people that live in this area. Their access to green Open spaces and the impact that more traffic will have on people are already struggling to commute to work or even get to the shops because it has become a nightmare to even go shopping.

The wildlife and the ecology of the area are going to suffer greatly. There are many beautiful, wild animals who have made their homes on the land where Wain Homes want to build the new houses. It would be an absolute abomination to churn up that land to allow houses to be built , for the wildlife to be put at risk of death and destruction There are also many beautiful flowers, plants, trees and bushes that contribute to our environment and our well-being

Our world is currently already in a terrible state with rainforests being demolished at a massive rate which leaves the future looking bleak for our younger generations. Global warming and deforestation is a massive threat to everyone's lives. We have to look at this from a local level and look at the destruction we will be causing by letting this go ahead. Also, more cars, more fumes, more pollution to an already polluted atmosphere. And le.ss trees to absorb the emissions, affecting everybody's health.

Please please seriously consider the damage that will be caused by letting this go ahead and what the impact it will have on The environment and residents now and on future generations to come.

I'm sure Wain Homes can find another area where they can build their houses.Thankyou.

Sally Waxman.
