

Planning application HPK/2024/0093

Previous HPK/2016/0022

Dear sir/madam

Concerning the above. When this first planning went in I asked that great relevance was given to the water running into the troughs which are I believe in the conservation area and are a hundred years old.

This build has caused many issues with the said area and the local MP, Charlesworth parish council did speak to the builder who also on many occasions assured us all the troughs would be looked after.

I have concerns that his ask to put ponds in his build will affect this area greatly. Can I be assured this part of the conservation area remains intact.

It was also blatantly obvious that the parking was always going to be an issue with these three houses. I would ask how planning has to be acquired now for an increase in driveway when the planning department should have clearly seen this was an error in design.

My ask in these matters is very personal in that my husband and I renovated this area for the village and the parish council at quite a high cost. To see this no longer functioning correctly would be a travesty for the village.

Yours sincerely
Mrs Jean Cryne

The tannery, town lane, Charlesworth.

Please be aware the letter is dated 8/4/24 and I received it today 17/4/24

I also tried to comment on the online form but this also seems not to be fit for purpose because the letter you send does not have all the information to complete it successfully.

I tried to ring your department but no one answers the phone.
