Submission: Support

Comments: I have been a member of Fitness in Mind for a number of years now, and like many members of the local community, I would be lost without it.

Since moving to the new location, FIM has continued to thrive as an independent, local business, which I am committed to supporting.

I can't imagine what noise levels FIM will cause considering the property was once a pub and I would imagine much more noisy than a few people exercising. The FIM community is also about inclusion; members are respectful and accommodating and conscious not to cause any nuisance.

The outside space in question is an important element to the ethos of the business. If the last few years have taught us anything, the ability to get outside and exercise is beneficial to us and our mental health. The new space has been greatly received and is a key element, especially during the warmer months. It would be a real shame and a waste to revoke the use of this space, especially when it is a big contributing factor in the mental wellbeing of FIM members.
