Submission: Support

Comments: The gym at the Swan provides the local community with a resource that supports wellbeing and physical health. Being able to exercise in the fresh air is important for mental health so the outdoor area (Astroturf) is a valuable addition. Using an outdoor space is also very environmentally friendly as there is no need for air conditioning. The Swan was previously a commercial property and this alternative use of the building and space seems unlikely to cause any significant impact to the residents around the property that would not previously have been expected.
