Submission: Objection

Comments: The proposal of such a vast number of new houses in an area that is a habitat for all manner of creatures is foremost abominable. The infrastructure in Glossop and surrounding areas is just not there. I work in one of the local high schools in Glossop and we are oversubscribed and overwhelmed with children waiting to attend. The local doctor surgeries can not meet the demand of the people already living in the local area. The traffic through Glossop into and out of is overwhelming, my journey to work everyday should take 12 minutes, I am normally sitting in traffic for 30 mins

The proposal/application is seemingly some corporate greed to make cheap ¿affordable¿ houses that in reality are not built in line with the housing that already exists. As a country we are slowly but surely losing precious woodland- what will the company plant to accommodate the habitat that already lives there, will they replant the thousands of bluebells?
