From:

Submission: Objection

Comments: I would like to object for the following reasons:

The new industrial units will overlook our house and our neighbours because they are so big.

They will cause more traffic on Ashbourne Lane which is already busy particularly at peak times.

The pavements on the road are very narrow. If large vans and HGVs start using the road it will be dangerous for my mum to walk to work and kids walking to school and the park. The sign at the top of the road already says its unsuitable for HGVs.

The new entrance will make the road even narrower in a difficult place with already narrow pavements.

The people's houses will be all around the units. Any smells or dust from the businesses will affect people in their homes.

There will be noise from the units which isn't fair when they are so close to homes. Will they be working a night shift? The units will need to be lit, even at night for security this will light up the homes around the area.
