From:

Submission: Objection

Comments: I would like to object to the new buildings on Ashbourne Lane. The new industrial units are very tall and will overlook the houses all around them. The buildings will be visible from the main road and an eyesore. The area isn't industrial anymore, it's now mostly residential so this is out of keeping. The businesses will create noise that will interfere with people's lives and mean that the road is even busier. It is already awkward to get to my mum's house on Ashbourne Lane at peak times, people commuting will add to this. The junction at the bottom of the road where it meets Market Street is already extremely busy. The route up the hill, out of town is narrow, difficult in winter and already busy as well. It is very difficult to pass other vehicles there. Will there be HGVs going to the businesses? These would make it dangerous to use the narrow pavements. There could be security lights shining in people's homes and gardens. There could be noise, smells and dust coming from the site going into peoples homes. It is just not suitable for a residential area.
