Application Reference No. : HPK/2024/0143 Site Address: Derbyshire County Council Works Department Ashbourne Lane Chapel-En-Le-Frith Derbyshire SK23 0PA High Peak Comments by: Janet Baldwin
From:

Submission: Objection

Comments: The height of the buildings in particular, Unit A which will be directly behind my property and twice as high as the existing buildings now in the yard, will tower over my back garden causing increased noise, smell, deprive us of natural light and intrusion of our privacy.

If one of these units is to be used as a plastic recycling plant as I have heard, the noise, smell and pollution it may cause will only be feet away from my property, will it be a 9-5 working environment? This is a residential area not a working area, the council yard that was there before had only a few workers and didn't work weekends, this new development will impact severely on all properties on Netherfoeld Road and Ashbourne Lane. It will impact on wildlife, as there are bats in that vicinity, on traffic pollution and unacceptable scale of the buildings planned!

Not forgetting there is a children's play area at the bottom of Ashbourne Lane and increased traffic especially lorries and big vehicles will put our children and grandchildren at a greater risk of getting involved in accidents.

I therefore strenuously object to this application going ahead.
