

FlushSash

Elegantly

authentic style

The newly unveiled FlushSash window is reminiscent of early 19th Century timber windows and is ideal for heritage homes, particularly in conservation areas where authentic looks are all-important.

The FlushSash is the latest innovation to come from one of the UK's leading PVC-U systems suppliers.

Unlike chamfered and sculptured styles which are designed to add contour and detail to your windows, the FlushSash sits flush within the frame and offers traditional understated elegance..

However traditional this window may look, it offers deceptively modern performance. Your home will be a haven of warmth and quiet, thanks to the thermal and acoustic insulation of the FlushSash. It has a five-chamber internal construction for increased energy efficiency.
