Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- ☐ Yes
☒ No

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption:
Self-build and custom build development

Reason for selecting exemption:
The application is for a self-build dwelling project

Note: Please read the help text for further information on the exemptions available and when they apply

Details of the pre-application advice received

The summary and conclusion of the pre-app response stated the below:

'Whilst the principle of development is acceptable having regard to local and national strategic planning policies relating to the supply of housing, further clarification is required having regard to the retention of part of the building with regards to whether this commercial use is a separate planning unit or ancillary to the proposed dwelling.

Either option creates potential issues. Should this area be retained as a separate commercial/industrial planning unit, then this gives rise to potential amenity issues and whether the neighbouring uses are commensurate with each other.

Should the area be retained as ancillary work/commercial space, then notwithstanding how large this area is and whether it is reasonable to conclude that this space is ancillary, any application will be required to justify the loss of the existing commercial/industrial use having regard to LP Policy E4.

Notwithstanding the above, I would advise that given the practical and functional appearance of the building that is in line with its lawful use as a commercial/industrial use, and having regard to the existing characteristics of the building and its context within the rural landscape, I have significant reservations about whether this building lends itself to a conversion. The introduction of the dormer window and balcony, combined with the design of fenestration and choice of materials, results in a poorly designed scheme that is likely to be found to have an adverse impact on the immediate rural landscape character.

Informally, you may wish to consider an alternative scheme that (notwithstanding compliance with LP Policy E4) involves the demolition of the existing building and erection of dwellinghouse(s) that may enhance the visual amenity of the site and wider area, that aligns with the traditional character of Spring Cottage.

You are already aware of the issues regarding Nutrient Neutrality and should also be mindful of the requirements under the Environment Act (2021) and need to secure 10% BNG on qualifying sites.'

We also had a pre-app meeting with the case officer, and it was concluded that the application plans were to be revised in terms of separating the dwelling and workshop, as well as addressing the design concerns.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

- ☒ Yes
- ☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

- ☐ Yes
- ☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
