Submission: Objection

Comments: I grew up at Gamesley and still have lots of my family living there. I strongly oppose this new build because of the already very busy road, Cottage Lane, that would lead onto it and the further havoc it will create - it would just be adding insult to injury for the local residents and utter chaos with all the many extra vehicles belonging to all these new homes. Also, the wildlife in the proposed area needs to be preserved and protected, many hundreds of species of insects and many types of wild animals have been safely settled in their own natural habitat there for hundreds of years, not to mention all the old lovely well established trees and plants that grow there too. It's bad enough having all the extra houses being built just around the corner on the old Roneo Vickers site in Glossop Road, all this is very damaging for people's health - the impact on the air quality from the fumes of hundreds of extra cars and other vehicles in such a small area will take its toll especially on those who already have respiratory illnesses. Also, there is the issue of the added possibility of road accidents. It doesn't take an expert to understand the dangers and implications of what more cars on small roads could cause, especially when children play football on the park right there on Cottage Lane!
