Submission: Objection
Comments: Hello

I'd like to raise what I suspect are fake or accidentally auto generated comments in support of a planning application ref above.

The comment refs are 539425, 539426, 539427, 539435, 539436 & 539437

They were all submitted within around 10pm on June 21st and all just say 'support' with no accompanying evidence.

I'm particularly concerned with 539435, as it appears to be fraudulently using a version of my name. To be clear I did not write this comment and I do not support the application. My name on Facebook is 'Andy Schaller - Williams' and it appears someone has written a comment from 'Andy Schaller' in support. I never use this name as my legal name is 'Andy Williams', which is the one I used to submit my objection (Ref 539896). It could be coincidence that someone called Andy Schaller lives in the area and submitted a support but it seems highly unlikely. Please could these refs above be reviewed and at the least 539435 be cross checked against address (my address is 36 Cottage Lane) and removed if fraudulent.

Thank you

Andy Williams
