Submission: Objection

Comments: I strongly object to this proposal. I am aware of the need for extra housing. However there are several developments of 100s of houses in the process of being built in and around Glossop including a large one "the crowberries" very close to this. They aren't finished yet. They will put enormous stretches to our already bursting schools. Doctors. Dentists which are already struggling to cope. Not to mention the increase to traffic and parking all these houses will add to an already diabolical situation. I use the roads adjacent to this area (cottage lane and Glossop road) 4 times a day travelling to and from work. I have to use my car as public transport isn't frequent enough. These roads are always busy. Often gridlocked.

It says some of the scattered trees would be kept. This would have little or no use to the wildlife living here as all the surrounding trees environment would be gone.

I can't imagine anyone seeing this land agreeing to it's destruction it is a well established mature woodland (with many trees having TPOs) teeming with birds and wildlife. Including badgers. Foxes. Deer. Hedgehogs. Bats. Newts. Woodpeckers. Bats. Owls. And is part of the ancient forest. It is a very important section to the wildlife living here and the woods on either side of it. as it is the only access for them to go to the ancient woodlands on either side of this land due to high walls and fencing. If this went ahead it would truly be a travesty and highly detrimental. No amount of investment in bio diversity would compensate for the loss of trees and wildlife in this well established woodland
