Submission: Objection

Comments: I think its outrageous plans are proposed to destroy this natural green area filled with wildlife, all in the name of profit! There are numerous failed housing developments locally already, all wasted money and materials and to add another housing site on a beautiful wildlife area is beyond belief. The infrastructure of Glossop is strained already with more cars and houses than the roads can cope with, we are pushed to capacity at schools and doctors as it is without adding more houses than our town can cope with. The proposed area is filled with deer, rabbits, bats and numerous wildlife. To tear away trees and destroy green areas is damaging our climate beyond repair and destroying our wildlife areas and town for future generations. We should endeavour to protect and improve the environment we have, if we continue to build on green areas there will be no countryside left. Please dont choose profit over the welfare of our town residents and please listen to our objections to this proposal, lets keep our countryside protected!
