Submission: Objection

Comments: We have a serious obligation to protect the environment and the wildlife that such a build would affect! This directly affects us as humans as well! I sincerely object to this going ahead. There are so many reasons as to why going ahead with this build would be a disastrous decision so I don't need to go on as many others have objected and given such reasons but most importantly to me is to look after the wildlife we have here and protect the beautiful area in which we are so lucky to have!
