Submission: Objection

Comments: Thank you for the opportunity to comment upon this application.

On behalf of the Society, I am objecting to the application because the information contained in the two planning documents is inadequate to make a judgement about the proposal. I will withdraw this objection if I am sent a plan showing the current and diverted routes clearly, together with information about what works will be carried out on the diverted path to make it suitable for public use (e.g. surface material, necessary gates and fences) and the details provided are satisfactory.
