Submission: Objection

Comments: My cousin has recently bought a house on burlow road down from hillhead.

Silt like material that is stored at the top of the road washes down and blocks the drains on burlow road.

Because of the blocked drains my cousins house floods which causes significant damage. This could be avoided by not allowing the silt like material to be stored in a place where it is washed down by the rain. I hope that the application is refused so they might find an alternative place to store the material which doesn't affect the homeowners on Burlow road.
