From:

Submission: Neither

Comments: I am concerned that the building of two garages will reduce the amount of parking space on the drive leading to obstruction by parked vehicles outside . As the house is on the corner near the entrance and exit to the main road, this causes difficulties for cars entering or leaving the road , and could lead to an accident .

I would also like to be reassured that building work will not be continual, ie day and night as no respite from noise is bad for my mental health and well being . There needs to be a cut off point, for everyone's sake
