Comments: Charlesworth is one of the very few villages that still have high quality, community minded businesses, but parking is a real issue and if overflow is directed to marple road for the major part of the working day it will seriously effect the 7 businesses all huddled around the very busy marple road/long lane/ town lane intersection. most of the residents don't have off street parking but we have all just about managed to get along by respecting each other. However throw 30 or more extra cars and a bus or two into the mix for 4.5 hours at a time, it will be a disaster. If they are saying there won't be so many cars then surely With 6.7 acres at their disposal they can provide their own parking rather than directing their patrons to the school carpark and the tight areas on the surrounding roads. I own Village Greens and reduced parking for customers would severely affect my business at a time when small independents are under attack from the multinationals. 2 Marple road has been a green grocers for 100 years. We should think of existing businesses that provide an excellent caring service to the locals.
