Submission: Objection

Comments: On the whole I am not against using this area as stated in the planning application. It will be nice to see the area being tidied up and used to view nature. However, I have lived here for 11 years and the last 3 years we have become very close to having our house and next door flooded, due to the applicants poor water management from a lagoon sited in the wooded area. During winter months and times of heavy rain, L Hoist install a diesel driven mobile pump in the wood and generally run it at all hours of the day to try and manage the lagoon level. The water is pumped through pipes along the woodland floor to a soak away behind the wall bordering the B5053. The route of which looks to be close to the area outlined in the planning application. My concerns are:- will L Hoist still be able to get heavy equipment in to control / service the lagoon by installing pumps and will the users of the newly created community picnic area enjoy listening to a diesel powered pump chugging away like ı I do notı whilst trying to take in the beautiful scenery and bird song from blackbirds,wrens and robins. Regards, David Hollins 2 Fiveways Brierlow Bar
