Submission: Support

Comments: I strongly support this proposal. The existing building is derelict and in poor repair. As the gym is upstairs, and there will be limited variation in numbers, there will be no change to traffic or noise. The existing gym offers a fantastic community hub, providing affordable fitness to the local community, this change of use will enable the club to improve their existing base. The gym has greeted regional, national, commonwealth, European and world champions and continues to bring children and young people together to learn new skills, stay fit and make new friends. The gym is open on a limited basis causing no disruption, and previous use, storage of milk floats would be more disruptive in unsociable hours. As well as acting as a community hub, producing elite level athletes and offering volunteering opportunities, the change of use enhances existing facilities to support healthy living, reduce obesity and tackle mental health in youngsters. The existing gym shall continue to be ran upstairs, change if use will simply allow improvement to an existing community facility
