Submission: Objection

Comments: We live in the Solomon's View Estate, adjacent to the ground.

1. Doubling the capacity is totally inappropriate to the local infrastructure. Local roads are used as car parks; cars are often parked on pavements and dangerously close to junctions; density of parking is already high enough to pose a problem to the fire-ambulance services should they be called to attend a private property. The capacity of the ground already greatly exceeds the local car parking capacity. As there is no available land to build a car park, this application MUST be refused.

2. Additional noise will also be a burden to local residents (they have already got away with erecting a larger digital screen without proper planning process).

3. This application has not been properly advertised to locals. It is in today's paper but with no link to this application (I had problems finding this). The area should have been leafleted for such an important development as it is bound to raise objections from those of us who live nearby. We have not seen a Planning notice tied to the lampposts near the Scout Hut entrance at the top of Peveril Rd.

4. There has apparently been a public consultation meeting. We knew nothing about it. It can't have been adequately advertised to local residents.
