Submission: Objection

Comments: I have been made aware that the site layout proposal may be different than the original plans submitted historically in this application, but I can find no update to the plans online. I believe that the number of houses being proposed may increase to 22 houses and not to the original design and purpose as currently shown in the online planning application, and this causes great concern. Can you please add the new intended layout to the online application for review? The main reason for my objections to this potential new development are increased traffic, increased congestion and pollution as there are already issues on the street with the vehicles attending Hadfield Bowling Club. There are already safety issues with the amount of increased traffic, so to add additional houses to this already congested street is a major safety concern. In addition, Hadfield infrastructure is already at breaking point with availability of doctors, dentists, schools etc, so this development would only add to the strain on the village and the living conditions of local people. Also the Planning consultation history is not correct on the application as it shows that numbers 6, 8, 10, 12, 14, 16, 18 and 20 have given permission, but the houses were not built when the alleged permission was given. I believe that speculative permission was agreed to on the application by the Red Rock, so the current local residents including me for the numbers above have never been consulted, and I have lived in this house since 2019. I would like the opportunity to discuss the proposal with a member of your team so that I can be sure of the intended development plans. Can someone please contact me
