Submission: Support

Comments: Having previously worked at CHH when it was a school and now live on the complex for over 15 years I can confidently say that I fully support this application on numerous grounds.

The proposed site for development has been cleared of so much waste building material and looks terrific now. The continuity of matching landscaping materials from CHH is also very pleasing to see as it reminds me of how it was.

The idea of reinstating a greenhouse is a lovely nod to the previous outbuildings up there that I used to enjoy.

Even though the house won't be seen, the design looks in keeping. Especially with using the same stone as CHH.

It was really refreshing when the Bennison family asked the residents for their inputs for the development during their design to make sure we were all happy. Thanks guys and good luck.
