Comments: Traffic congestion is bad enough around this area and adding more homes will only make this worse; unless a completely new road is put in to reduce this congestion, additional properties are a very bad idea for the local area.

In addition to the previous point hogshaw fields soak up alot of rainwater that must find a new route if there are housing foundations installed, the local area has suffered from flooding for years and has recently improved due to work carried out; with the addition of homes the flooding will only re-appear and potentially make some people's homes uninsurable and therefore unsellable which could ruin lives of the locals who have worked hard to afford a property in this lovely area.
