Submission: Objection

Comments: I object to this planning permission. I believe that the building of 99 homes on hogshaw field will make a drastic effect on the flow of traffic coming into the light wood area. Causing more pollution in our beautiful town. The congestion of traffic at busy times will cause hold ups and be an eye sore for local people who have lived in this area for many years.

It also concerns me that this could cause flood risks due to the field draining a lot and the rain water in this area.

The risk of airborne and water course contamination is also a worry to us as locals and to our planet, therefore I am against the build of these properties.
