Submission: Objection

Comments: I do not consider this a suitable site for house building. It will increase traffic from the roundabout on the common, causing longer traffic queues and holdups down Fairfield Road. As I live nearby, I am concerned about the effect of traffic fumes on my health. Also, I believe the 'dump' at the bottom of the hill contains toxic chemicals which may be released into the air, causing another health hazard.

If many families are housed there more teachers, doctors and community workers will be needed, yet there is a national shortage of these professionals.

I believe there is also a risk of flooding. In any case, much of the natural environment in this area - where there are many animals, birds, plants and trees - would be damaged or disappear forever.
