Submission: Neither

Comments: Properties should be planned so bins can be stored within the property boundary and be moved to the presentation point without the need to go up or down steps or through the property. Garden gates need to be wide enough to accommodate a standard 240l wheeled bin.

Collection vehicles will be unable to access the new road / unadopted highway area to the new properties and therefore they will have to present their bins at a point next to the nearest adopted highway (Buxton Road).
