The site is within an accessible location within Glossop and is within walking distance of a range of shops and services as well as public transport links.

Reliance upon the car for travel will not be necessary for the occupants of the proposed dwellings. Each dwelling will be provided with two car parking spaces and are indicated on plan 23-027 1004 Rev D.

In view of the above it is considered that the proposed development will not lead to an adverse impact on the free flow of traffic along the highway or on highway safety in general.
