Submission: Objection

Comments: No to the planning application. The air quality and traffic is already bad enough without more pollutants from the contaminated land going into the air and the local water course. To allow this application to go ahead will be another spit in the face to the local residents by local government. I used to work in construction and know that Barrett homes throws up terrible quality homes with cheap labour and materials with no thought for local residents. I will vote accordingly if this planning is approved.
