

HOUNDS HAVEN SECURE DOG FIELD

PARK ROAD, GLOSSOP, SK131EP

Dog Waste Management Plan

It is part of our rules and terms of use (which can be found on our website, field gates and are also emailed to the customer along with their confirmation of booking) that customers **MUST** pick up after their dogs immediately – We provide **COMPLIMENTARY** biodegradable dog poo bags at numerous points around the field and there are several dog waste bins with bin liners on site for customers to put filled bags into.

The number of dogs allowed on site at any one time is 8 and we have ensured we have sufficient dog waste bins located around the field to allow for disposal of this waste. These bins are emptied daily, and the filled bags are then tied and moved into a locked 140litre pet waste bin which is situated on the hard standing area outside of the field in the car park. This will be collected on a monthly basis initially however additional or more frequent collections can be arranged at short notice if required. This bin is provided by Pet Waste Solutions (A licensed **Safe Contractor** approved specialist in commercial dog waste disposal).

Furthermore, the field is thoroughly checked by a Hounds Haven representative daily and dog waste that may have been missed by a customer is collected by the staff member and disposed as described above.
