Comments: We reiterate our comments made previously. In addition, we are still not sure that the 5m. easement for the Nestle water supply accurately covers the location of the pipe.

The upgrading of the footpath adjacent to existing roads will need some form of restriction in place to prevent the use by motorcycles which does from time to time happen now on the footpath.

It is also worth stressing the increase in traffic on the only road access into the town will cause more problems , particularly as the nearest supermarket has now moved away from the town onto the Ashbourne road.

The new health centre which was supposed to help with medical facilities does not look like happening now and so more pressure will occur on local existing services which are already severely stretched.
