Hello James,

Thank you for referring this application for our consideration.

Our response is in consultation with the area Police licensing team, as the changes proposed here will ultimately require an amendment

to the applicant's premises licence as a tandem process, and whilst planning and licensing determination can hinge on different issues, for us they remain the same.

There are no known operational issues at the premises in question which might cast the application into doubt.

The licensing officer and I are of one mind that approval should be subject to the following :
CCTV coverage of the external drinking and smoking areas.

A restriction of access to the external gardens via the main premises, with no permitted public access or egress through the rear gates off Chapel Street, or via the side alley off Bridge Street.

A restriction on hours of use of, and the playing of amplified music within the outdoor space, which we expect will be set in detail by your E.H.O.

If you feel that these matters are not appropriate for planning conditions, or if the setting of conditions in this instance is seen as too onerous in context, we would be happy with an informative note, on the understanding that the requirements would be fleshed out during the premises licence variation.

Regards
