Comments: This application is well overdue for this area, Mobile Telecoms Provision has been for some 20 years been poor in this area, it is hoped that the proposal will greatly help the immediate and surrounding area.

In my opinion this should be considered under permitted development as it is as important as the sewerage and other amenities when considering new housing.

It will also allow other important services to be improved such as police radio network, DAB radio and Digital television should the need arise.

Having looked at the plans and the surrounding area it should fit into the industrial background of Harpur Hill, there is little argument in my opinion that it will be a scar on the landscape as the nature of the damage done by quarrying in the area and the industrial landscape it will form part of and its need greatly outweighs the arguments too.

Looking at the plans it should also help underpin the existing coverage for the areas of Cowdale, King Sterndale, Chelmorton Low, Rugby Club, Harpur Hill Industrial Estate and Brierlow Bar helping to reduce the traffic on other mast sites complimenting the network well.

This application in my opinion warrants good support, it is well planned, safe and needed.
