For the attention of Mr. James Stannard

Dear Mr Stannard,

Application Ref HPK/2024/0349

My wife and I were shocked to see (for the first time) a yellow public notice fixed to a post at the entrance to Mr Clare's site two days ago. We have (on the weekend Oct 18th - 20th) returned from a holiday and knew that such notice was not visible before we left for our 5 day holiday. We are very concerned because we have been given to understand that a full 21 days should be given for public consultation.

This application will have a serious impact for the whole residential neighbourhood because we all live on the single lane access of Baggard Lane. Surely, we together with other residents,

ought to have received the "standard advance notice" letter in order to give us all a voice in the matter. At the very least a notice should have been displayed at the head of the lane.

In conclusion we demand to be given our full rights and that being the full 21 days in which to put forward our reasoned response to the above mentioned application. We plan to seek professional advice on the matter but in the meantime request an extension beyond the set date of October 31st 2024 for Public Consultation.

We await your urgent reply to this letter by return post. Thank you.

Yours sincerely
..

MRS. J. HARTLE

MRS. J.M. HARTLE

P.S. This follows a telephone conversation with Carol one of your H.P.B.C. advisors.
