Submission: Objection

Comments: 28a High Street is in a designated conservation area, the rules of which stipulate a common look for the property frontages.

All businesses are bound by those rules and all have glazed bay wooden frame windows with either a door to the side or a door in the middle of those.

Changing this frontage is detrimental to the look of the businesses in the area as a whole and disregards the conservation area status. Planning permission for this change should be denied and the frontage should be restored to be in line with the conservation area rules.

The proposed illuminated signs also are not in keeping with the look of a conservation area, and one business should not be allowed to break the guidelines that the whole street has been maintaining, so again permission should not be given for that change.
