To Planning Applications,

I am writing in regard to the planning application N° HPK/2024/0385 Name of Mr Crisp. I feel strongly that the new front elevation is against current planning development in a conservation area. As a resident who lives in the conservation area and had to stay within current policy on their own home during renovations it would seem strange to allow this application.

Currently High Peak Council are working with retailers in Buxton town centre to 'put' back the front facades to a more sympathetic style. These are lovely and add real character to the retailers. Please don't allow this application.
