Enquiry details

Ms. Simpkin,

Having reviewed the latest documents to be uploaded to the planning portal it is once again obvious just how little importance the applicant is affording this process. The generic SuDs Maintenance Schedule they have provided refers to St Dominics Convent, Stone and features a site plan for what i can only imagine is the Convent site. Furthermore whilst appendix 2 is titled (Typical Maintenance Checklist) it doesn't actually include any information.

Are we seriously expected to believe that the recommendations made in this document for the maintenance of the proposed SuDs will be complied with when they are making such basic errors with the paperwork?

Regards,

Chris Horner
