Submission: Objection

Comments: This woodland is regularly used by myself as a dog walking route, with plenty of wildlife to observe. More importantly, there have been bats observed in this area for many years - bats and their resting places are legally protected and cannot be destroyed/ removed. It would be completely unlawful to displace so many protected species of animals and destroy habitats all for the gain of another housing developer. The access route to the build is not suitable and will force more congestion and pressure onto cottage lane which is already overflowing with cars. I completely and utterly OBJECT to this site being granted planning permission, especially when the housing development on Glossop road is incomplete, but which does offer safer access and less possibility of pressure and congestion on to a narrow local road.
