Glossop

Submission: Objection

Comments: The infrastructure of Glossop is beyond weak already. Schools, Doctors, Dentists (no NHS) are all suffering. The roads are full of pot holes with over use and lack of adequate repair. Water supply is suffering (pipes constantly bursting and water regularly being cut off sometimes for up to 24 hours across Glossop) We have witnessed some electricity problems recently too. Getting in and out of Glossop is problematic, with lack of adequate traffic flow, not to mention the pollution all the high volumes of traffic brings into our Greenland. This leads to Cottage Lane, of which access is a one lane dance of a tango of cars trying to race up and down, weaving in and out of parked cars, avoiding oncoming cars, which in the past has lead to numerous residents cars becoming damaged. Nature is being impacted, I know owls, deer and other beautiful wild animals use the woods for protection. How many more habitats have to be destroyed, losing more trees that aid to repair the ridiculous overwhelming pollution from high volume traffic already in the area!? Did I mention the traffic before !?!? It would also be interesting to know how large articulated vehicles and diggers, as well as contractor staff vehicles will safely access the area without causing damage and/or delays to locals journeys, or equally, where will contractors park their vehicles ready to work without again causing further problems on the roads within the vicinity of the land. Glossop need to stop building on green, and stop building in general until the

infrastructure is sorted.....oh but that won't happen because derbyshire CC is broke meaning road repairs don't get sorted, and that's the tip of the iceberg
