Submission: Objection

Comments: I strongly object to this proposal. I am aware of the need for extra housing however there are several developments of 100s of houses being built in and around Glossop. Including a large one "the crowberries " very close to this proposal. They aren't finished yet.

They will all put enormous stretches to our already bursting schools Doctors and dentists etc which are already struggling to cope. That's before starting on the increase in traffic and parking all these new houses will add to an already diabolical situation.

I use the roads adjacent to this area (cottage lane and Glossop road A626) at least 4 times a day travelling to and from work. I have to use my own car as public transport isn't frequent enough. These roads are always busy often gridlocked.

It says some of the trees would be kept. This would have little or no use to the wildlife living here as all the surrounding trees and environment would be gone.

I can't imagine anyone seeing this land and agreeing to its destruction. It is a well established and mature woodland. Many trees here have TPO's. it's teeming with wildlife including badgers, foxes, deer, hedgehogs, bats, newts, owls and woodpeckers. Many protected and endangered birds and animals.

It is part of the ancient forest. This land is a very important section to the wildlife living here and in the woods on either side as it is the ONLY access for them to get to the ancient forest on either side of this land due to high walls and fencing.

If this went ahead it would truly be a travesty and highly detrimental to animals and people.

No amount of investment in bio diversity would compensate for the loss of trees and wildlife in this well established woodland
