APPLICANTS NAME

JAN BUTLER, RAVENSLEACH FARM

OPPOSITION TO PLANNING APPLICATION
AT RAVENSLEACH FARM (NO. ABOVE)

Dear Sir or Madam,

I have seen
the plans for the proposed
development above and am writing
to you in response.

The three houses proposed
opposite my house (181) are on elevated
ground above my house, this will
be above the height of my property.
These houses will look down onto
mine and neighbours properties.

This will effect my privacy very considerably and be very intrusive.

The car parking in the field will also be intrusive as well as being an eyesore next to the main road in a residential area.

The access to the proposed houses is up a cart track from the main road which is a very busy road nowadays.

There is a public footpath where the houses are planned.

The landowner has recently blocked off the footpath without permission.

As you will know this is not allowed and I would like you to look into this matter also.

Thanking you for your consideration
The whole set up is not ideal for houses.

Yours sincerely
