Submission: Objection

Comments: I wish to object to this planning application.

'The George Hotel' is one of the oldest buildings in Hayfield and is situated right in the centre of the village and the Conservation Area. The barriers are both very tall and coloured bright red, both of which make them extremely visible in such a sensitive area. The need for such barriers, and associated parking restrictions, is dubious. None of the other parking areas in the village have felt the need to put up any sort of barrier and I question how they could possibly help to improve the safety of staff or anyone else using 'The George'. The number and size of the signs, both at the entrance to the car park and within the parking area itself, create an unnecessary clutter and eyesore and are detrimental to the charm and ambiance of the building and the surrounding area.

The whole area within the curtilage of 'The George' should be carefully reviewed. This is another retrospective planning application for work that has already taken place at this site. It has been done in the full knowledge that other recent work undertaken required planning consent, also applied for retrospectively.
