Submission: Objection

Comments: This proposed planning will put stress on an already busy area, it will also damage existing eco-systems many plants and trees will need to be removed and as a result wild life will be lost to the area. Green spaces in the local area keep disappearing which a huge shame. This is damaging local wild life and this proposed development is likely to impact the stream that run by this land. The most recent development in Chinley has stagnated and now causing a massive eyesore in the community.
