Comments: The installation of this communication mast is not just a convenience; it is a necessity. As a paying customer of a mobile service provider, I currently do not receive the reliable service I am paying for. This lack of connectivity has significant consequences, as I frequently miss important calls both inside and outside my home. To compensate, I am forced to rely on WiFi for making calls, which is not always stable or accessible. This situation is unacceptable, especially in today's world where seamless communication is essential for work, personal matters, and emergencies.

The proposed communication mast will address these critical issues, ensuring that I and others in the area can access the reliable mobile services we deserve. It will eliminate the frustration of missed calls, improve connectivity, and provide peace of mind knowing that we can stay connected when it matters most. I strongly support this initiative and urge its approval to enhance the quality of life and communication for everyone in the community!
